CLIENT

Testainty — an all-in-one assessment platform for hiring, training, and certification

OVERVIEW

In a world driven by speed, waiting days for assessment results is no longer an option. Organizations need answers that are fast, accurate, and reliable. Testainty is built for the modern workplace with automated grading, secure monitoring, customizable question banks, and real-time dashboards.

APPROACH

Design

- Build an assessment experience optimized for speed and clarity

Secure

- Add image and audio monitoring for trustworthy evaluations

Automate

- Deliver automated grading with consistent, unbiased scoring

Inform

- Surface real-time dashboards and actionable insights

THE PROBLEM

Traditional evaluations are slow, fragmented, and hard to scale. Educators and organizations often struggle with manual grading, limited question reuse, inconsistent scoring, and delayed visibility into results—slowing hiring, training, and certification decisions.

- Slow turnaround from assessment to actionable results
- Manual grading that reduces consistency and increases bias risk
- Limited flexibility to tailor assessments by skill and difficulty
- Weak visibility into evaluation progress and outcomes
- Difficulty securing remote assessments with monitoring controls

SOLUTION OFFERED

Certainty helped shape Testainty as an all-in-one evaluation ecosystem combining ready-made and tailored question banks, configurable durations, automated evaluations, secure image and audio monitoring, and real-time dashboards that keep stakeholders informed.
